

Who are “WE” at Our Lady of Peace? A Center of Excellence

We follow the Gospel of Jesus Christ, and a way of living that reflects our Catholic identity and empowers our students to grow in their faith life and practice.

We have an environment that is safe and healthy for our children, helping to protect our children from the modes of bullying prevalent in our society. We provide on-site peer group programs that enable students to be proactive in making right choices and positive moral decisions.

We have a structure in discipline and order that offers an environment in which dignity and respect toward others is expected and cultivated in the lives of our students.

We have an academic program that strives for excellence within a learning community that proves its capacity in state and national testing score and ensures that our students will become successful, lifelong learners.

We have a faculty committed to differentiated learning and recognize the variety in learning styles among our young learners. First rate technology in the classroom - using I-Pad's in the classroom-- enables active and engaged learning, developing critical thinking skills for the complex challenges the 21st Century.

We have two full-time, on-site intervention specialists to assist students in their academic needs.

We offer an Enrichment Arts Academy which extends our day providing our students with a variety of competence building academic and social skills.

Check out our website www.OurLadyofPeace.org for a broader look at our Center for Early Learning, Our Lady of Peace School, and our Extended Day Enrichment Academy.
